

PRESS CONFERENCE

After having helped fight COVID-19
for over a year, PI Rxes is now in
the spotlight once more...

what can we expect from
Fortitude Kit 3.0?

Is MIRXES now
focusing on COVID,
cancer or miRNA?

Aside from influenza,
what other viruses will
the Fortitude syndromic
Panel detect alongside
COVID-19 in the future?

There's more to me
and MiRXES than you think!

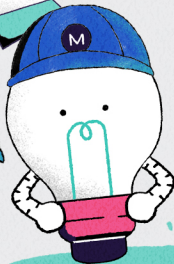

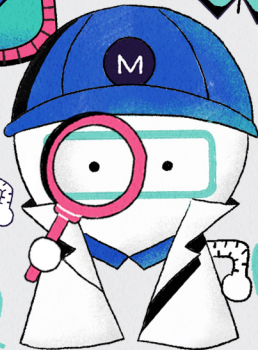

Infectious and
other diseases

Precision
oncology

Early cancer
detection

Discovery
solutions

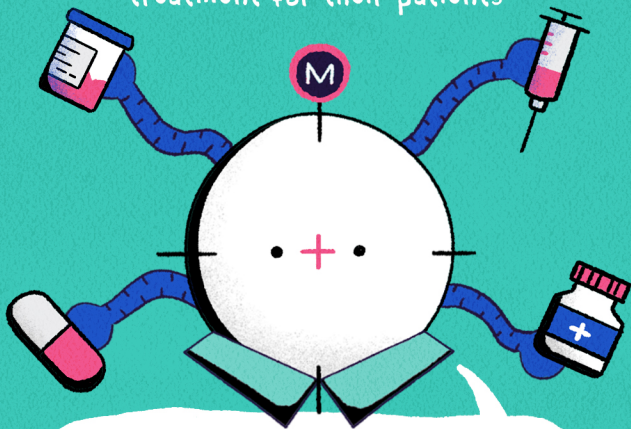

It's always a good day to save lives
with the help of early cancer
detection kits like GASTROClear!

40;
Low risk
of gastric
cancer

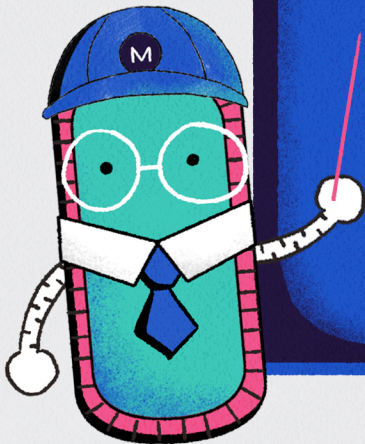

Detecting soon:
- Lung Cancer
- Breast Cancer
- Colorectal Cancer
And more!

Helping doctors choose the right
treatment for their patients

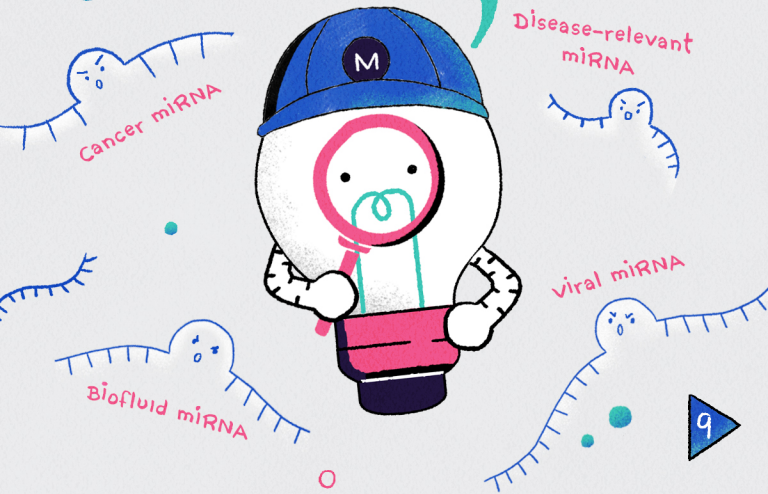

we don't just save lives at the
start—we help cancer patients
fight their way out of cancer!

And it's not just cancer or
COVID-19 we can detect early!

- ✓ Cancer
- ✓ Infectious Diseases
- ✓ Cardiovascular Diseases
- ✓ Metabolic Diseases

There's a whole new world of microRNA
disease biomarkers out there—it's my job
to help biopharma and life science
researchers discover them!

And those are the true powers of PI Rxes and MiRXES: saving lives through early, actionable, and personalized diagnoses!
